

Tendabox S8170

Cassette awning with folding arms

The flat construction of the Tendabox with its tight-fitting housing and rounded profiles produces an especially elegant awning. Continuous angle adjustment from horizontal to vertical on lateral rotating mechanism.

Wall or top mounting with fixing brackets. Available for individual or series installation. Strong aluminum folding arms with integrated tension spring, double stainless steel cables and cable protection over center arm joint. The elegant cassette with brush sealing and bottom protects awning against the weather when retracted and thus guarantees a long life.

On widths of more than 16'4" a reinforced box is fitted.

Standard drive with easy-running bevel gearbox with integrated end stop, free wheel winding handle ring and operating handle.
