Licensed and Insured in the State of Hawaii for the installation of synthetic lawns and putting greens

Long-time golf buddies Jim Lebieczinski (left) and Roger Brasel are co-owners of Southwest Greens Hawaii. They know that a good short game is the key to a good golf game. The drive and enthusiasm they share for golf has brought them together to develop professional-grade putting greens. Jim's 30-year experience in the plastics industry has combined with Roger's over 35-years as a licensed practicing Architect to provide you the quality and attention to detail you deserve. And now they offer the same quality materials for lawns, play areas and athletic fields.
